

Quality Policy

WARP Group provides traffic management under normal, emergency and special event conditions, develops traffic management plans and provides traffic management training.

WARP Group is committed to ensuring the quality of products and services we provide are at the highest possible standard. In doing so, we aim to consistently meet and exceed the expectations of our customers, clients and peers.

Our core values guide our employee performance and our commitment to quality, measured through objectives and targets to the continual improvement of our systems and procedures to which Quality ISO 9001 forms part thereof.

Consistent with this, WARP Group will:

- Work profitably with all of our clients and ensure we work in an ethical and legal manner, with written contractual agreements;
- Deliver our projects to clients on time and on budget with the intention of satisfying and exceeding the expectations of the client;
- Maintain a level of focus for public needs, that our clients and the public authorities would be expected to provide themselves;
- Conduct regular audits of our work, and when requested, provide documented evidence that all Traffic Management Plans have been developed in accordance with the contract, all relevant legislation and codes of practice;
- Use professional advice when necessary to ensure that we satisfy our legal requirements of relevant legislation and/or legal requirements covering the work we conduct;
- Continue to review all company policies to ensure they shall reflect the structure and activities of our business; and
- Ensure company policies and procedures are continually communicated to all personnel and interested parties.

A successful Quality Management system requires the involvement and commitment of everyone concerned, therefore, all WARP Group Employees and Key Stakeholders are required to comply with this policy to ensure the best possible outcome.

Stephen O'Dwyer
Managing Director
WARP Group
